Profile

AI & ML undergraduate in Computer Science with strong skills in Python, SQL, and Power BI. Practical experience with machine learning projects, data visualization, and real-time modeling deployment. Data Analysis and Cloud certified, ready to assume an entry-level position where technical and analytical skills can be used to address business issues.

Education

Periyar Maniammai Institute of Science & Technology

2021 – 2025

B.Tech (Hons.) – Computer Science & Engineering (AI & ML Specialization)

CGPA: 7.75/10

Skills

Programming: Python, SQL

AI/ML: Machine Learning, Deep Learning, Image Processing

Data & Analytics: Power BI, Data Visualization, Data Analysis

Professional: Teamwork, Communication, Project Management, Time Management

Experience

Python Developer Intern

Jan – Jun 2025

Tarcin Robotics

Remote

- Developed interactive Python-based projects for STEM education.
- Designed reusable code modules to simplify programming concepts for students.

Machine Learning Intern

Jul – Aug 2024

Cognifyz Technologies

Remote

- Built ML models for rating prediction and cuisine classification.
- Used Scikit-learn and Pandas for data preprocessing and model training.

Projects

Restaurant Analytics Suite | *Python, Scikit-learn, Machine learning*

[GitHub Link](#)

- Developed ML models for rating prediction, recommendation, and classification using real-world datasets.
- Applied Scikit-learn and visualization tools for analysis.

Mango Leaf Disease Detection | *Python, Deep Learning, EfficientNetB0, Gradio*

[GitHub Link](#)

- Trained EfficientNetB0 model for 8-class mango leaf disease recognition.
- Applied preprocessing and deployed model via Gradio.

Certifications

Python Programming – GUVI

Artificial Intelligence Fundamentals – IBM SkillsBuild

AWS Cloud Practitioner – Amazon

Data Analyst – Honeywell

Project Management Foundations – LinkedIn Learning
